

The Professionals' Choice

# ROC RELOCATIONS

## Crate Hire

ROC Relocations has over thirty years of knowledge and experience of the commercial relocations industry. This has helped us in developing and introducing our own dedicated crate division to assist you and manage all your crate hire requirements during your company's relocation or for your personal use.

Our operation covers the entire United Kingdom and offers next day delivery for all orders or requests submitted by 14:00 the day before. Should you have a late request or an emergency requirement, our team can normally arrange delivery the same day.

All crates supplied are de-labelled and clean. When the crates are delivered our team will distribute to your designated areas and floors in the building. All crate stacks are located neatly, with the consideration and safety of your staff we will not stack empty crates in stacks of more than ten to ensure that access is easy.

We remove crates from site in a careful and timely manner as and when you require. All crate movements are accurately recorded and we keep you up to date by sending weekly summary of any outstanding crate hire.

## Materials and Equipment

We have developed and perfected our range of various types of boxes and cartons as well other consumables We can also supply a range of equipment to hire

If you are relocating your office or business, or just need some boxes for storage, then please use our web order form or call us on 01708 634400
